We would appreciate having a statement about your philosophy and work as an artist—either general or something specific about the piece(s) selected for this year's May Show to aid us in the preparation of gallery talks and in the release of publicity materials. The natural environment (its trees, water, clouds and fields of flowers) has always been important to me. I have always looked to nature not only for inspiration but also as a source for the clarity of form and color I want to achieve. Nature is my source; painting is my affirmation and celebration of life.
